Unfortunately, the Algarve does not have a good public transport service and getting to the SAND CITY park by public transport can be an "adventure".

This difficulty is compounded by changes in timetables depending on the time of year, which makes it very difficult to consult the timetables available on the VAMUS platform.

Our suggestion is to contact the bus company VAMUS by calling the support number **300 074 830** and ask which bus is available to the park.

The closest stops to the SAND CITY park that are included in the VAMUS system are 3606 and 3607 – Barros Brancos (International School).

Good trip.
